EXPERIENCE

Dimension11 Games(Legend of Orisha) | Hybrid (Lagos, Nigeria) — *Gameplay Programmer*

March 2022 - Present

- Developed and implemented core gameplay systems, including combat mechanics, enemy AI behaviors, and level progression using Unreal Engine 4 & 5, C++, and Unreal Blueprints.
- Collaborated closely with designers to prototype and iterate on new gameplay features and mechanics.
- Spearheaded internal QA efforts, including bug tracking, error documentation, and system integrity validation prior to external playtesting to ensure a polished and enjoyable player experience.
- Contributed to optimization efforts to maintain high performance across various platforms.
- **Key Skills:** Unreal Engine, C++, Unreal Blueprints, Gameplay Programming, Quality Assurance, Optimization

Axxon Network | Remote — *Gameplay Engineer*

November 2023 - March 2024

- Designed and prototyped gameplay systems and mechanics using Unreal Engine 5..
- Collaborated with the Art and Design team to iterate on game concepts and features.
- Implemented backend services, including player accounts, matchmaking, inventory management, and leaderboards, using Azure PlayFab.
- Contributed to the early stages of game development, focusing on design documentation and system architecture.
- **Key Skills:** Unreal Engine, Gameplay Design, Backend Development (Azure PlayFab), Design Documentation

EDUCATION

Obafemi Awolowo University, Nigeria — *B.Sc. Computer Engineering*

- Relevant Coursework: Introduction to Digital Systems, Computer Programming, Object-Oriented Programming, Artificial Intelligence, Data Structures and Analysis of Algorithms, Operating Systems Principles, Principles of Compilers, Low-Level Languages, Computer Architecture, and Organization, Vectors and Mathematical Methods
- Activities: Google Developer Student Club, Microsoft Learn Student Ambassador

SKILLS

Technologies: C++ | Lua | Python | Unreal Blueprint

OS/Tools: Windows | Unreal Engine | Visual Studios | JetBrains Rider | Git | Github | Blender | Perforce | SVN | Azure Playfab

Soft Skills: Problem-solving | Communication | Leadership | Teamwork | Adept Learning | Meticulous | Attention to Detail | Critical Thinking

PROJECTS

- **Gallery Shooter** (*Unreal Engine 4, Unreal Blueprint*) - A simple FPS target shooting game, worked on the projectile and the target board logic.
- **Lucky Maze** (*Unreal Engine 4, Blender, Unreal Blueprint*) - A Global Game Jam project, Worked in a team of 4 to design how the power-up appears and Playtested the game.
- **Beat them Up** (*Unreal Engine 5, Unreal Blueprint*) - A personal project. Led the development of the core movement and combat systems for a 3D action RPG

LEADERSHIP/MEMBERSHIP

- Nov 2023 - Present Microsoft Student Learn Ambassadors - Core Team (Game Lead)
- Oct 2023- Jan 2024 Co-Organizer, Game Jam Plus 2023 - Nigeria
- Nov 2021 - Present Site Organizer, The Global Game Jam
- Jan 2021 - Jan 2022 Game Development Lead, Google Developer Student Clubs

ADDITIONAL INFORMATION

- **Certification:** Electronic Arts Software Engineering virtual experience program on Forage - March 2024
- Languages: English (Full professional proficiency), Yoruba(Native)
